
General information

Astronomy & Astrophysics has transitioned to open access publication as part of the EDP Sciences' "Subscribe to Open programme" on **4 April 2022** (see <https://www.aanda.org/subscribe-to-open-faqs>).

Under this programme, **newly accepted articles on or after 4 April 2022 will be published in full open access**, with no additional charge for the authors. The cost to publish in the journal in open access is covered by library subscriptions.

Continuous open access publication is dependent on subscriptions being renewed, and will be reviewed every year.

In addition, EDP Sciences have special agreements with the following consortia supporting the Subscribe to Open model. It is important that we continue to detect accurately articles whose corresponding authors are affiliated with these institutions or consortia. Such articles are always published in full open access.
